If we are going to be walking around the site, you will most likely need boots or some shoes other than work shoes. Adam will we also need hard hats.

Great! Thanks. That would work well since the meeting discussion will be more meaningful once we know how the site looks like.

Yes, I would very much like to see the Site as well. And I know you, as the RPM, should definitely see it. I'm sure we'll have time to swing by either before or after the meeting.

Ed

It will well worth visiting the site. Will we have time to swing by the site? Looks like the site is diagonally across downtwon from their offices. Maybe we can go earlier to visit the site and then go to the meeting or see if we can meet earlier at 1:30 and go to the site after the meeting.

Hi Larry,

My management has agreed to allow me to travel to Houston and meet with you, Mr. Genssler, Ms. Koks, and any other PRP Group attorneys and representatives next Monday, September 19, at 2 p.m. I should also have some other EPA folks coming with me for the meeting. I take it the meeting will be held at the USOR Site?

Also, I found out this morning that the Unilateral Administrative Order for Non-Interference was signed today. As soon as I obtain a file-stamped PDF copy, I'll e-mail it to you.

Yes.

We hope to be able to conference with you on Monday.

Hi Larry,

As we discussed during our phone conversation this afternoon, I am sending this e-mail to confirm your understanding that the July, 2010 consent for access to the EPA and signed by Mr. Joe Sibley on behalf of his client is still valid and has not been revoked. You also reminded me of the receiver's consent for access which, in your understanding, is also still valid.

You and Mr. Genssler have proposed a meeting with me and Ms. Koks for next Monday, September 19, in which you've offered for me to participate by phone to avoid the cost of travel. I certainly appreciate that offer. As I understand it, the purpose of the meeting is to discuss the need or possibility of a new consent for access, the work to be performed pursuant to the Action Memorandum and non-interference with that work. Although you reiterated your understanding that the July, 2010 access is still valid and has not been revoked, you mentioned that your client would like to nonetheless discuss access to both the EPA and the PRP group in light of the fact that access is now being sought by the PRP group to perform the work required under the Administrative Order on Consent.

Please let me know if my understanding is in any way incorrect. Likewise, if you have any questions, please feel free to call or e-mail me. In the meantime, I will discuss with Region 6 management the invitation you've extended to me to participate, by phone or in person, in the proposed meeting for next Monday.

Best regards,

Edwin M. Quinones Assistant Regional Counsel US EPA Region 6, 6RC-S 1445 Ross Ave. Dallas, TX 75202 214-665-8035 214-665-6460 fax
